

DORY

Tom CatTM

Tom Cat™

CRUISE, FISH, DIVE, EXPLORE... YOU CAN DO IT ALL.

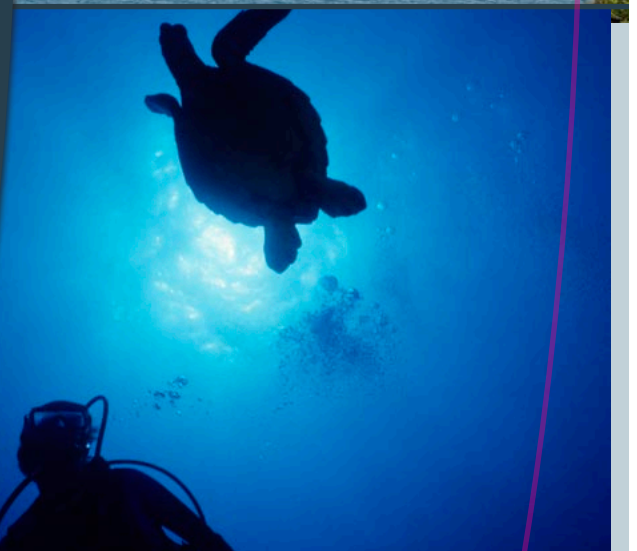

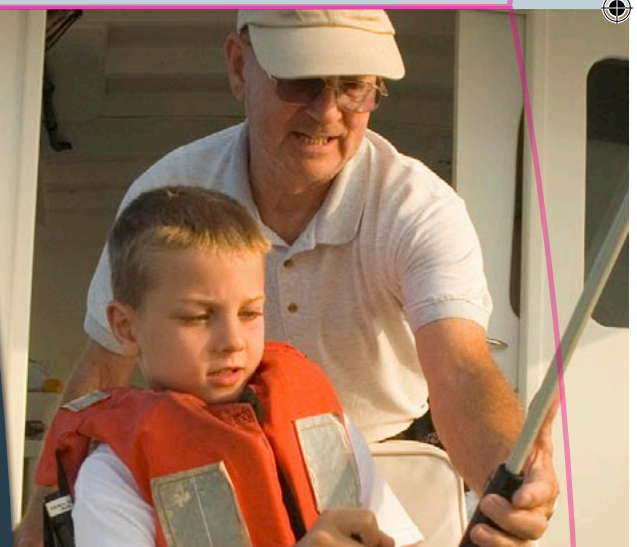

The TomCat is a get anywhere, do anything catamaran. Rated for offshore use, it is equally adept in the cold waters of Alaska as it is in the warm waters of Florida and Hawaii. Comfortably cruising between 10 and 30 knots, the efficient true planing hull provides flat and predictable turns. And, the stability of its platform provides true recreational freedom. The TomCat cuts through the water, taking you fast and efficiently to your chartered destination.

GET ANYWHERE, DO ANYTHING

The TomCat's enclosed pilothouse will provide shelter from the elements; sun, cold, wind or rain. The spacious cabin provides a queen size plus berth in the bow, a dinette with a convertible forward facing seat (that makes into a roomy single berth) and a full featured galley complete with hot and cold water and two burner stove. An enclosed head is located on the starboard side just aft of the galley with a hot and cold shower. The cabin provides seating for four with 360 degree visibility out the windows at all speeds.

The large 45 square foot cockpit is perfect for fishing, diving or comfortably enjoying life on the water.
